PART I

BASIS OF PRESENTATION

The following Management's Discussion and Analysis ("MD&A") for Morguard Real Estate Investment Trust (the "Trust"), should be read in conjunction with the Trust's condensed consolidated financial statements and the accompanying notes for the three months and nine months ended September 30, 2026, and 2025.

This MD&A sets out the Trust's strategies and provides an analysis of the financial performance for the three months and nine months ended September 30, 2026, and significant risks facing the business. Historical results, including trends that might appear, should not be taken as indicative of future operations or results.

The Trust's condensed consolidated financial statements and the accompanying notes for the three months and nine months ended September 30, 2026, have been prepared in accordance with IFRS Accounting Standards ("IFRS"). These condensed consolidated financial statements include the accounts of the Trust and other entities that the Trust controls and are reported in thousands of Canadian dollars, except where otherwise noted.

The information in this MD&A is current to October 28, 2026.

FORWARD-LOOKING DISCLAIMER

Statements contained herein that are not based on historical or current fact, including without limitation, statements containing the words "anticipate", "believe", "may", "continue", "estimate", "expects", "will" and words of similar expression, constitute "forward-looking statements". Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, events or developments to be materially different from any future results, events or developments expressed or implied by such forward-looking statements. Such factors include, among others, the following: general economic and business conditions, both nationally and in the regions in which the Trust operates; changes in business strategy or development/acquisition plans; environmental exposures; financing risk; existing governmental regulations and changes in, or the failure to comply with, governmental regulations; liability and other claims asserted against the Trust. Given these uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. The Trust does not assume the obligation to update or revise any forward-looking statements.

SPECIFIED FINANCIAL MEASURES

The Trust reports its financial results in accordance with IFRS. However, this MD&A also uses specified financial measures that are not defined by IFRS, which follow the disclosure requirements established by National Instrument 52-112 *Non-GAAP and Other Financial Measures Disclosure*. Specified financial measures are categorized as non-GAAP financial measures, non-GAAP ratios, and other financial measures, which are capital management measures, supplementary financial measures, and total of segments measures.

NON-GAAP FINANCIAL MEASURES

Non-GAAP financial measures do not have any standardized meaning prescribed by IFRS and are not necessarily comparable to similar measures presented by other reporting issuers in similar or different industries. These measures should be considered as supplemental in nature and not as substitutes for related financial information prepared in accordance with IFRS. The Trust's management uses these measures to aid in assessing the Trust's underlying core performance and provides these additional measures so that investors may do the same. Management believes that the non-GAAP financial measures described below, which supplement the IFRS measures, provide readers with a more comprehensive understanding of management's perspective on the Trust's operating results and performance.

The following discussion describes the non-GAAP financial measures the Trust uses in evaluating its operating results:

Net Operating Income – Same Assets

Net operating income ("NOI") is used as a key indicator of performance as it represents a measure over which management has control, and is a key input in determining the value of the Trust's properties. NOI – same assets is a non-GAAP measure used by the Trust to assess period-over-period performance of those properties that are stabilized and owned by the Trust continuously for the current and comparable reporting period. The Trust believes it is useful to provide an analysis of NOI – same assets, which also eliminates non-recurring and non-cash items. NOI – same assets represents NOI from properties that have been adjusted for: (i) acquisitions; (ii) dispositions; and (iii) area either held for, or under, development/redevelopment/intensification. NOI – same assets also excludes the impact of straight-line rents, lease cancellation fees and other non-recurring items. A reconciliation of NOI – same assets from the IFRS financial statement presentation can be found in Part III.

Funds From Operations ("FFO")

FFO is a non-GAAP measure widely used as a real estate industry standard that supplements net income and evaluates operating performance but is not indicative of funds available to meet the Trust's cash requirements. FFO can assist with comparisons of the operating performance of the Trust's real estate between periods and relative to other real estate entities. FFO is computed by the Trust in accordance with the current definition of the Real Property Association of Canada ("REALPAC") and is defined as net income adjusted for fair value changes on real estate properties and gains/(losses) on the sale of real estate properties. The Trust considers FFO to be a useful measure for reviewing its comparative operating and financial performance. A reconciliation of net income to FFO is presented in Part III, "Funds from Operations and Adjusted Funds from Operations".

Adjusted Funds From Operations ("AFFO")

AFFO is a non-GAAP measure that was developed to be a recurring economic earnings measure for real estate entities. The Trust presents AFFO in accordance with the current definition of the REALPAC. The Trust defines AFFO as FFO adjusted for straight-line rent and productive capacity maintenance expenditures ("PCME"). AFFO should not be interpreted as an indicator of cash generated from operating activities as it does not consider changes in working capital. A reconciliation of FFO to AFFO is presented in Part III, "Funds from Operations and Adjusted Funds from Operations".

Adjusted Cash Flow From Operations ("ACFO")

ACFO is a non-GAAP measure intended as a supplemental measure of sustainable economic cash flow for real estate entities. The Trust presents ACFO in accordance with the current definition of the REALPAC. The Trust defines ACFO as cash flow from operating activities as per the condensed consolidated financial statements adjusted by: (i) adding back the non-recurring change in non-cash operating assets and liabilities; (ii) deducting normalized PCME; (iii) adding back actual additions to tenant incentives and leasing commissions; (iv) deducting amortization of deferred financing costs; and (v) adjusting for the portion relating to equity-accounted investment in each of the above adjustments. A reconciliation of cash flow from operating activities from the IFRS financial statement presentation to ACFO is presented in Part III, "Adjusted Cash Flow From Operations".

Proportionate Share Basis

The Trust's balance sheets, statements of income and statements of cash flows, all prepared in accordance with IFRS, have been adjusted (as described below) to derive the Trust's proportionately owned financial results ("Proportionate Basis"). Management believes that the Proportionate Basis non-GAAP measures described below, which supplement the IFRS measures, provide readers with a more comprehensive understanding of management's perspective on the Trust's operating results and performance.

Equity interest adjusts interests in joint arrangements that are accounted for using the equity method of accounting. The financial results of one property under IFRS is presented on a single line within the condensed consolidated balance sheets and statements of (loss)/income and comprehensive (loss)/income and has been adjusted on a proportionately owned basis to each respective financial statement line presented within the balance sheets, statements of income/(loss) and comprehensive income/(loss) and statements of cash flows (see Part VIII). The presentation of *pro rata* assets, liabilities, revenue and expenses represents a non-GAAP measure and may not accurately depict the legal and economic implications of the Trust's interest in the joint venture.

Normalized Productive Capacity Maintenance Expenditures

Normalized PCME are an estimate made by management of the amount of ongoing capital investment required to maintain the condition of the physical property and current rental revenues. Since actual capital expenditures can vary widely from one period to another, depending on a number of factors, management believes that normalized PCME are a more relevant input than actual PCME in assessing the Trust's distribution payout ratio and for determining an appropriate level of sustainable distributions over time. The factors affecting variations in actual PCME include, but are not limited to, lease expiry profile, tenant vacancies, age and location of the properties, and general economic and market conditions, which impact the level of tenant bankruptcies and acquisitions and dispositions.

The Trust defines PCME as expenditures on leasing, replacement or major repair of component parts of properties that are required to preserve the existing earning capacity of the Trust's real estate portfolio. The Trust categorizes these expenditures as leasing commissions, tenant allowances and recoverable and non-recoverable capital expenditures.

NON-GAAP RATIOS

Non-GAAP ratios do not have any standardized meaning prescribed by IFRS and are not necessarily comparable to similar measures presented by other reporting issuers in similar or different industries. These measures should be considered as supplemental in nature and not as substitutes for related financial information prepared in accordance with IFRS. The Trust's management uses these measures to aid in assessing the Trust's underlying core performance and provides these additional measures so that investors may do the same. Management believes that the non-GAAP ratios described below provide readers with a more comprehensive understanding of management's perspective on the Trust's operating results and performance.

The following discussion describes the non-GAAP ratios the Trust uses in evaluating its operating results:

FFO Payout Ratio

The Trust calculates its payout ratio by dividing the distributions per common unit by FFO per unit over the same period. Management uses this payout ratio to measure the Trust's ability to pay distributions.

Interest Coverage Ratio

Interest coverage ratio is a non-GAAP measure used by the Trust to assess the Trust's ability to pay interest on its debt from operating revenues and is calculated on a proportionate basis using net operating income, less general and administrative expenses divided by interest expense, net of amortization of deferred financing costs.

Debt Service Coverage Ratio

Debt service coverage ratio is a non-GAAP measure used by the Trust and the real estate industry to assess the ability to pay down its debts. The Trust calculates this measure on a proportionate basis by using net operating income, less general and administrative expenses divided by the cash interest and principal costs of servicing its debt.

Debt to Assets Ratio

Debt to assets ratio is a non-GAAP measure used by the Trust and the real estate industry to assess the risk profile of its capital allocations and the ability to incur additional debt. The Trust calculates this measure by taking assets adjusted by accumulated amortization divided by net debt. The Trust's debt to assets ratio is limited to 65% as detailed in its Declaration of Trust.

SUPPLEMENTARY FINANCIAL MEASURES

Supplementary financial measures represent a component of a financial statement line item (including ratios that are not non-GAAP ratios) that are presented, in a more granular way outside the financial statements, calculated in accordance with the accounting policies used to prepare the line item presented in the financial statements.

The following discussion describes the supplementary financial measures the Trust uses in evaluating its operating results:

Bifurcation of Segments

Management believes bifurcating the retail and office financial statement segments into community strip centres and enclosed regional centres (retail) along with single-/dual-tenant and multi-tenant buildings (office) provides important information about the risk profile and other characteristics of the above asset classes. This has been analyzed for financial statement line items such as revenue, net operating income and fair value adjustments on real estate properties.

CAPITAL MANAGEMENT MEASURES

The Trust's capital management is designed to maintain a level of capital that allows it to implement its business strategy while complying with investment and debt restrictions pursuant to the Declaration of Trust, as well as existing debt covenants, while continuing to build long-term unitholder value and maintaining sufficient capital contingencies.

The following discussion describes the Trust's capital management measures:

Liquidity

Liquidity is calculated as the sum of cash, amounts available under its bank lines of credit and revolving credit facility with Morguard and is presented in this MD&A because management considers this capital management measure to be an important measure of the REIT's financial position as well as in determining the annual level of distributions to unitholders.

ADDITIONAL INFORMATION

Additional information relating to the Trust, including the audited annual consolidated financial statements, Annual Information Form ("AIF"), Material Change Reports and all other continuous disclosure documents required by securities regulators, are filed on the System for Electronic Document Analysis and Retrieval ("SEDAR+") and can be accessed electronically at www.sedarplus.ca and www.morguard.com.

REVIEW AND APPROVAL BY THE BOARD OF TRUSTEES

The Board of Trustees ("the Trustees"), upon the recommendation of its Audit Committee, approved the contents of this MD&A on October 28, 2026.

PART II

BUSINESS OVERVIEW AND STRATEGY

The Trust's primary business goal is to accumulate a Canadian portfolio of high-quality real estate assets and then deliver the benefits of such real estate ownership to unitholders. The primary benefit is a reliable and, over time, increasing cash distribution. The Trust manages distributions to ensure sufficient cash is retained to meet fixed obligations while ensuring a stable cash flow to unitholders.

The Trust is an unincorporated "closed-end" trust, governed by the laws of the Province of Ontario, created and constituted pursuant to an amended and restated Declaration of Trust dated May 5, 2021 ("Declaration of Trust"). The Trust was formed on June 18, 1997, and began operations on October 14, 1997. The Trust units are publicly traded and listed on the Toronto Stock Exchange ("TSX") under the symbol MRT.UN.

Morguard Corporation ("Morguard") is the parent company of the Trust, owning 68.96% of the outstanding units as at September 30, 2026. Morguard is a real estate company that owns a diversified portfolio of multi-unit residential, retail, hotel, office and industrial properties in both Canada and the United States.

The Trust's asset management team is focused on continually improving the returns from the assets currently owned, and making quality acquisitions that are accretive in the long term. As part of its strategy to continually improve the quality of its property portfolio, the Trust undertakes the disposition of properties in cases where both the cash flows and values have been maximized, where the properties no longer fit the Trust's portfolio or where market trends indicate that superior investment return opportunities are available elsewhere.

The Trust's management team is incentivized to maintain occupancy levels and rents that outperform local markets. The Trust has established standards for maintaining the quality of its portfolio and operating its properties at cost levels that are competitive in their respective markets. These efforts are enhanced through a sustainability program that tracks utility usage and savings over time. These savings are returned to our tenants through reduced operating costs, increasing the Trust's reputation as a responsible landlord.

The Trust's management team is supported by contracted property management. The choice to contract for property management provides the Trust with a day-to-day operating platform that is both "best-in-class" and cost effective. Property management services are delivered through a management agreement with Morguard Investments Limited ("MIL"). MIL is a full-service real estate advisory company wholly owned by Morguard. MIL also provides advisory and management services to institutional and other investors not related to Morguard or the Trust. The Trust's agreement with MIL provides property management services at predetermined rates based on a percentage of revenue. This provides predictability on a key component of operating costs. In addition, MIL provides the Trust with leasing services across the full portfolio. With MIL locations across the country, the Trust benefits from local market knowledge and local broker relationships. An annual review of this agreement, combined with MIL's institutional client base, ensures that rates for services reflect current market conditions.

The Trust's long-term debt strategy involves the use of conventional property-specific secured mortgages or bonds, unsecured convertible debentures and secured floating-rate bank financing. The Trust currently targets a capital structure with an overall indebtedness ratio in the range of 50 to 55% of gross assets. Through its Declaration of Trust, the Trust is allowed to increase its overall indebtedness ratio to 65%.

In this MD&A, the discussion of the Trust's property performance for the purpose of *some* measures is focused on income producing properties ("IPP"), excluding properties held for development, area under development and properties held for sale. The Trust defines these excluded areas as follows:

Properties held for development: These properties, while income producing, operate with future opportunity in mind. As a result, management will enter into lease arrangements with shorter lease terms and options to exit the lease at the landlord's request. As a result, these properties do not deliver the same results (rental rates) as other IPP.

Area under development: When circumstances warrant, the Trust will reposition component parts of its properties. When this occurs, the associated area ("area under development") is not available for occupancy. As a result, this area is not income producing.

Properties held for sale: The Trust may undertake to actively dispose of certain assets. In these circumstances, management has determined that the performance of the ongoing operations is of the greatest importance to stakeholders.

PORTFOLIO OVERVIEW

The risk and reliability characteristics of real estate asset classes are different, and delivering on the primary business goal requires a mix of assets that balance risk and rewards. As at September 30, 2026, the Trust owned a diversified real estate portfolio of 45 retail, office and industrial properties consisting of approximately 8.0 million square feet of gross leasable area ("GLA") located in the provinces of British Columbia ("BC"), Alberta, Saskatchewan, Manitoba, Ontario and Quebec. Included in this portfolio is one retail property that the Trust has deemed as held for development, and one office property, consisting of 0.2 million square feet of GLA, located in the province of Alberta, which is accounted for using the equity method.

Retail: The retail portfolio includes two broad categories of income producing properties: enclosed full-scale, regional shopping centres that are dominant in their respective markets; and community strip centres that are primarily anchored by food retailers, discount department stores and banking institutions. Investing across these two broad categories of retail assets allows the Trust to spread its tenant base, reducing its exposure to a single category of retailer.

Office: The office portfolio is focused on well-located, high-quality properties in major Canadian urban centres. The portfolio is balanced between single-tenant properties under long-term lease to government and large national tenants that work to secure the Trust's cash flow, and multi-tenant properties with well-distributed lease expiries that allow the Trust to benefit from increased rental rates on lease renewal.

Industrial: The Trust has an interest in four industrial properties located in Ontario.

ENCLOSED REGIONAL CENTRES OVERVIEW

At September 30, 2026, the Trust's enclosed regional centres portfolio totalled 3.2 million square feet of GLA, comprising a 100% interest in six regional centres totalling 3.1 million square feet and a 50% interest in one additional centre totalling 0.1 million square feet. Included in the above 3.2 million square feet of GLA is 0.2 million square feet of area either held for, or under, development.

COMMUNITY STRIP CENTRES OVERVIEW

At September 30, 2026, the Trust's community strip centres portfolio totalled 1.1 million square feet of GLA, comprising a 100% interest in 10 such properties totalling 1.0 million square feet, as well as a 50% interest in one additional property totalling 0.1 million square feet. Included in the above 1.1 million square feet of GLA is 0.1 million square feet of area either held for, or under, development.

SINGLE-/DUAL-TENANT BUILDINGS OVERVIEW

At September 30, 2026, the Trust's single-/dual-tenant buildings portfolio totalled 1.8 million square feet of GLA, comprising a 100% interest in eight properties totalling 0.7 million square feet and a 50% interest in four properties totalling 0.9 million square feet. Included in the above 1.8 million square feet of GLA is 0.2 million square feet of area relating to the Trust's equity-accounted investment.

MULTI-TENANT BUILDINGS OVERVIEW

At September 30, 2026, the Trust's multi-tenant buildings portfolio totalled 1.7 million square feet of GLA, comprising a 100% interest in seven properties totalling 1.3 million square feet, a 50% interest in three properties totalling 0.3 million square feet and a 20% interest in one property totalling 0.1 million square feet.

INDUSTRIAL OVERVIEW

At September 30, 2026, the Trust's industrial portfolio includes a 100% interest in four industrial properties comprising 0.3 million square feet. This portfolio includes some retail storefronts.

CONSOLIDATED OPERATING HIGHLIGHTS FOR THE NINE MONTH PERIODS ENDED SEPTEMBER 30, 2026, AND 2025

Net operating income for the nine months ended September 30, 2026, decreased 3.2% compared to 2025. This decrease resulted mainly from a one-time 2021-2024 tax refund received in 2025 at one of the Trust's Ontario properties in the amount of $3.2 million, relating mostly to vacant space. This change has contributed to the large increase in property tax expense in 2026, and has also had corresponding impacts on FFO and AFFO for the quarter.

Revenue from real estate properties includes contracted rent from tenants along with recoveries of property expenses (including property taxes).

The following is an analysis of revenue from real estate properties by segment:

	Three Months Ended September 30,			Nine Months Ended September 30,

Property operating expenses include costs related to interior and exterior maintenance, insurance and utilities.

Property operating expenses for the nine months ended September 30, 2026, decreased 0.3% to $56.0 million from $56.2 million for the same period in 2025. This decrease is primarily due to lower utilities expense compared to 2025.

The Trust records its income producing properties at fair value in accordance with IFRS. These adjustments are a result of the Trust's regular quarterly IFRS fair value process. In accordance with this policy, the following fair value adjustments by segment have been recorded:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2026	2025	**2026**	2025
Retail	**$4,942**	($3,811)	**$6,823**	($15,666)

The Trust's retail properties NOI for the three months ended September 30, 2026, was $16.1 million versus $20.2 million for the same period ended 2025, a decrease of $4.1 million. The decrease was mainly the result of a one-time 2021-2024 tax refund received in 2025 at one of the Trust's Ontario properties in the amount of $3.2 million, relating mostly to vacant space, coupled with increased vacancy costs of $1.0 million, mostly in the Trust's Ontario enclosed malls.

The Trust's retail properties NOI for the nine months ended September 30, 2026, was $46.5 million versus $49.8 million for the same period ended 2025, a decrease of $3.3 million. The decrease was mainly the result of a one-time 2021-2024 tax refund received in 2025 at one of the Trust's Ontario properties in the amount of $3.2 million, relating mostly to vacant space.

The Trust's community strip centre portfolio had robust net operating income growth of 0.9% for the quarter and 2.5% for the year-to-date period. These assets operate at close to full occupancy, resulting in good rental growth on lease renewals over the last two years.

Net operating income	**$10,427**	$10,079	3.5%	**$30,826**	$30,013	2.7%

The Trust's office properties NOI for the three months ended September 30, 2026, was $10.4 million versus $10.1 million for the same period ended 2025. The favourable variance of $0.3 million is mainly the result of net operating income growth at Penn West Plaza in Calgary, Alberta.

The Trust's office properties NOI for the nine months ended September 30, 2026, was $30.8 million versus $30.0 million for the same period ended 2025, an increase of $0.8 million. The favourable variance is mainly the result of net operating income growth at Penn West Plaza in Calgary, Alberta, offset somewhat by the downsizing upon renewal of major tenants at 111 Dunsmuir and at Standard Life Centre.

The Trust has a strong government presence in its office tenancy, which helps mitigate the risk of non-payment of rent for this asset class. Approximately 34% of the Trust's office contracted gross revenue is attributable to government tenants.

The Trust's industrial properties NOI for the three months ended September 30, 2026, was $0.9 million versus $1.0 million for the same period ended 2025. This unfavourable variance is mainly the result of increased vacancy costs.

The Trust's industrial properties NOI for the nine months ended September 30, 2026, was $2.7 million versus $2.8 million for the same period ended 2025, a decrease of $0.1 million. The decrease is mainly the result of increased vacancy costs of $0.3 million, offset by increases in basic rent of $0.2 million.

NET OPERATING INCOME – SAME ASSETS

The components of net operating income – same assets are displayed in the table below. For comparability in this section, the NOI is focused on same assets, which is a supplementary financial measure. Assets acquired, disposed of and developed/redeveloped/intensified over the comparable periods are removed, along with the impact of stepped rents, lease cancellation fees and area either held for, or under, development and other non-recurring adjustments, collectively; the adjustments for same assets. Lease cancellation fees relate to payments received from tenants where the Trust and the tenant agreed to terminate a lease prior to the contractual expiry date. Lease cancellation fees are unpredictable and period-over-period changes are not indicative of trends.

LEASING ACTIVITY

The Trust places a high value on tenant retention as the cost of retention is typically lower than the cost of securing new tenants. When retention is neither possible nor desirable, the Trust strives to secure high-quality replacement tenants.

The table below provides a summary of the leasing activity for the nine months ended September 30, 2026:

Not included in the above tables is the expiry at Petroleum Plaza, located in Alberta, which is accounted for using the equity method. This property has 152,146 square feet of GLA (at the Trust's share) and is fully leased to the provincial government, which expired January 1, 2021, and has been in overhold since that date. The contract rent on the expired lease was $27.00 per square foot. Due to the priority of attending to the COVID-19 pandemic and other priorities by the Alberta government over this time, the Trust has been advised that the tenant will attend to the lease renewal when time allows. The building has remained occupied by the tenant since January 1, 2021. The Trust still expects the tenant to renew at market rates.

Approximately 235,000 square feet of British Columbia office space expiring in 2027 represents a single tenant that has committed to a 5-year renewal through July of 2032.

CORPORATE ITEMS

INTEREST EXPENSE

Interest expense totalled $47.3 million for the nine months ended September 30, 2026, compared to $47.8 million for the same period in 2025. The components of interest expense are as follows:

	Three Months Ended September 30,			**Nine Months Ended September 30,**

Interest expense has decreased primarily due to lower interest rates on both variable and renewed fixed rate debt.

FAIR VALUE GAINS/(LOSSES) ON REAL ESTATE PROPERTIES

For the nine months ended September 30, 2026, the Trust recorded fair value losses on real estate properties of $9.3 million, compared to $41.9 million of fair value losses on real estate properties in 2025.

Fair value adjustments are determined quarterly based on the movement of various parameters, including changes in projected cash flows as a result of leasing, timing and changes in discount rates, and terminal capitalization rates.

Fair value gains/(losses) on real estate properties consist of the following:

	Three Months Ended September 30,		**Nine Months Ended September 30,**	
	2026	2025	**2026**	2025
Retail – enclosed regional centres	**$4,942**	($3,811)	**$6,823**	($15,666)
Office	**(1,679)**	(6,234)	**(15,011)**	(26,522)
Industrial	**(209)**	(300)	**(1,159)**	274
	$3,054	($10,345)	**($9,347)**	($41,914)

The fair value losses recorded for the office portfolio during the year of $15.0 million (2025 – $26.5 million) are a result of the expansion in capitalization rates for select Ottawa assets, coupled with higher vacancy at specific properties.

APPRAISAL CAPITALIZATION AND DISCOUNT RATES

Morguard's subsidiary has a valuation team that consists of Appraisal Institute of Canada ("AIC") designated Accredited Appraiser Canadian Institute ("AACI") members who are qualified to offer valuation and consulting services and expertise for all types of real property, all of whom are knowledgeable and have recent experience in the fair value techniques for investment properties. AACI-designated members must adhere to AIC's Canadian Uniform Standards of Professional Appraisal Practice and undertake ongoing professional development. Morguard's appraisal division is responsible for determining the fair value of investment properties every quarter. The team reports to a senior executive, and the internal valuation team's valuation processes and results are reviewed by senior management at least once every quarter, in line with the Trust's quarterly reporting dates.

Generally, the Trust's real estate properties are appraised using a number of approaches, depending on the asset, that would typically include a discounted cash flow analysis, a direct capitalization approach and a direct comparison approach.

The primary method of valuation used by the Trust is discounted cash flow analysis. This approach involves determining the fair value of each income producing property based on, among other things, rental income from current leases and assumptions about rental income from future leases reflecting market conditions at the applicable balance sheet dates, less future cash outflows pertaining to the respective leases. Fair values are primarily determined by discounting the expected future cash flows, generally over a term of 10 years and include a terminal value based on the application of a capitalization rate to estimated year 11 net operating income. Discount and capitalization rates are estimated using market surveys, available appraisals and market comparables.

The direct comparison approach compares a subject property's characteristics with those of comparable properties that have recently been sold. The Trust has a retail property in British Columbia where the highest and best use is a redevelopment to mixed residential and commercial use. Since the value of the property is in the underlying land with minimal holding income, it has been valued using the direct comparison approach.

Under the direct capitalization approach, capitalization rates are applied to the estimated stabilized NOI of the properties. Estimated stabilized NOI is based on projected rental revenue and property operating costs adjusted for such items as vacancy loss. The direct capitalization approach is typically used to corroborate the discounted cash flow analysis.

The stabilized capitalization rates in the following table exclude the property valued using the comparable sales method, as well as one property with expected variable income that did not have its discounted cash flow analysis corroborated using the direct capitalization approach.

Using the direct capitalization income approach to corroborate the discounted cash flow method, the properties were valued using capitalization rates in the range of 5.0% to 9.5% applied to a stabilized net operating income (December 31, 2025 – 5.0% to 10.0%), resulting in an overall weighted average capitalization rate of 7.59% (December 31, 2025 – 7.58%).

The stabilized capitalization rates by business segments are set out in the following table:

STABILIZED CAPITALIZATION RATES

Fair values are most sensitive to changes in discount rates, capitalization rates and stabilized or forecast net operating income. Generally, an increase in net operating income will result in an increase in the fair value of the income producing properties, and an increase in capitalization rates will result in a decrease in the fair value of the properties. The capitalization rate magnifies the effect of a change in net operating income, with a lower capitalization rate resulting in a greater impact to the fair value of the property than a higher capitalization rate. If the weighted average stabilized capitalization rate were to increase or decrease by 25 basis points, the value of the income producing properties as at September 30, 2026, would decrease by $62.9 million or increase by $67.2 million, respectively.

The sensitivity of the fair values of the Trust's income producing properties is set out in the table below:

NET INCOME FROM EQUITY-ACCOUNTED INVESTMENT

For the nine months ended September 30, 2026, the Trust generated $1.5 million of income from its equity-accounted investment, compared to $1.3 million of income for the same nine months ended September 30, 2025.

PRODUCTIVE CAPACITY MAINTENANCE EXPENDITURES

PCME are expenditures on leasing, replacement or major repair of component parts of properties that are required to preserve the existing earning capacity of the Trust's real estate portfolio. The Trust categorizes these expenditures as leasing commissions, tenant allowances and recoverable and non-recoverable capital expenditures.

Leasing Commissions and Tenant Allowances: The Trust requires ongoing capital spending on leasing commissions, tenant incentives and tenant improvements pertaining to new and renewed tenant leases. These costs depend on many factors, including, but not limited to, tenant maturity profile, vacancies, asset type, prevailing market conditions and unforeseen tenant bankruptcies.

Recoverable and Non-Recoverable Capital Expenditures: The Trust continually invests in major repair and replacement of component parts of the properties, such as roofing, parking lots, elevators and HVAC. These costs depend on many factors including, but not limited to, age and location of the property. Most of these capital expenditure items are recovered from tenants, over time, as property operating costs.

The Trust uses normalized PCME to calculate AFFO. Normalized PCME is an estimate made by management of the amount of ongoing capital investment required to maintain the condition of the physical property and current rental revenues. Management considers a number of factors in estimating normalized PCME relative to the growth in age and size of the Trust's property portfolio. Such factors include, but are not limited to, review and analysis of three years of historical capital spending, comparison of each quarter's annualized actual spending activity to annual budgeted capital expenditures as approved by the Trustees and management's expectations and/or plans for the properties. Normalized PCME has been set at $8.75 million per quarter in 2026, or $35 million on an annualized basis.

Since actual capital expenditures can vary widely from one period to another, depending on a number of factors, management believes that normalized PCME are a more relevant input than actual PCME in assessing the Trust's distribution payout ratio and for determining an appropriate level of sustainable distributions over time. The factors affecting variations in actual PCME include, but are not limited to, lease expiry profile, tenant vacancies, age and location of the properties, and general economic and market conditions, which impact the level of tenant bankruptcies and acquisitions and dispositions.

The following table provides a breakdown of actual PCME for the three and nine months ended September 30, 2026, and 2025.

CASH FLOWS

Cash flow generated from real estate operations represents the primary source of liquidity to service debt and to fund planned maintenance expenditures, tenant improvements and distributions to unitholders. Cash flow from operations is dependent upon occupancy levels, rental rates achieved, collection of rents, efficiencies in operations and the cost to lease, as well as other factors.

The following table details the changes in cash for the following periods:

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2026	2025	% Change	**2026**	2025	% Change
Cash provided by operating activities	**$18,947**	$22,812	(16.9%)	**$25,407**	$22,324	13.8%

Cash, end of period	**$8,883**	$7,426	19.6%	**$8,883**	$7,426	19.6%

Cash provided by operating activities for the nine months ended September 30, 2026, increased to $25.4 million from $22.3 million in 2025 mainly due to higher leasing commissions paid in 2025.

Cash provided by financing activities decreased to $1.1 million for the nine months ended September 30, 2026, from $2.4 million in 2025.

Cash used in investing activities for the nine months ended September 30, 2026, decreased to $24.7 million compared to $25.2 million in 2025.

The following table provides a breakdown of the working capital changes, not indicative of sustainable cash flows available for distribution, which have been excluded in the calculation of ACFO:

In the calculation of ACFO, the Trust makes an adjustment for certain working capital items that are not considered indicative of sustainable economic cash flows available for distribution. Examples include prepaid realty taxes and insurance, interest payable and receivable, payments and proceeds from insurance claims, rent received in advance, and transaction cost accruals relating to acquisitions and dispositions of investment properties.

ACFO continues to include the impact of fluctuations from normal operating working capital, such as changes to net rent receivable from tenants, trade accounts payable and accrued liabilities.

Management analyzes working capital quarterly through a detailed review of all the working capital balances at the transactional level contained within each general ledger account. Significant individual transactions are reviewed based on management's experience and knowledge of the business, to identify those having seasonal fluctuations if related to sustainable operating cash flows or those transactions that are not related to sustainable operating cash flows.

DISTRIBUTIONS TO UNITHOLDERS

The Trust's primary business goal is to accumulate a Canadian portfolio of high-quality real estate assets and then deliver the benefits of such real estate ownership to unitholders.

The Trust expects to distribute to its unitholders in each year an amount not less than the Trust's taxable income for the year, as calculated in accordance with the *Income Tax Act* (Canada) ("the Act"). The Trust's monthly distribution to unitholders in 2026 was $0.02 representing $0.24 per unit on an annualized basis.

For the nine months ended September 30, 2026, Morguard has enrolled in the distribution reinvestment plan ("DRIP"), electing to receive unit distributions instead of cash distributions.

In determining the annual level of distributions to unitholders, the Trust looks at forward-looking cash flow information, including forecasts and budgets, and the future prospects of the Trust. The Trust does not consider periodic cash flow fluctuations resulting from items such as the timing of property operating costs, property tax instalments or semi-annual debenture interest payments in determining the level of distributions to unitholders in any particular quarter. Additionally, in establishing the level of cash distributions to the unitholders, the Trust considers the impact of, among other items, the future growth in IPP, the impact of future acquisitions and capital expenditures, and leasing costs. As a result, the Trust compares distributions to AFFO to ensure sufficient funds are retained for reinvestment.

The following is an analysis of 2026 monthly distributions:

BALANCE SHEET AND REAL ESTATE OVERVIEW

The carrying value of the Trust's real estate properties increased to $2.2 billion at September 30, 2026 (December 31, 2025 – $2.1 billion). Income producing properties were affected by additions from the Trust's capital investment programs (including PCME and completed development), which were offset by property dispositions and fair value changes.

The following table presents the Trust's summarized balance sheets as at September 30, 2026, December 31, 2025, and September 30, 2025.

PROPERTIES UNDER DEVELOPMENT

The Trust's development program consists of projects identified by management to create additional long-term value for the Trust's real estate portfolio and align with the long-term strategic objectives. These may include development projects to expand leasable area, redevelopment of an existing area and retrofit opportunities. The following is a list of development projects:

	Portfolio	Estimated GLA	Estimated Project Cost	Spend to Date	Estimated Completion Date	Comments
RETAIL						
St. Laurent Centre	Enclosed regional centres	84,000	$23,303	$4,747	Q1 2028	Anchor tenant remerchandising of former Sears space (Phase 2), including parking deck demolition

Development projects		**234,000**	**$31,582**	**$8,837**		

The Trust is embarking on a multi-phase remerchandising development program at St. Laurent Centre. The first phase included tenants such as H&M, Sephora and La Vie en Rose, and was completed during the fourth quarter of 2025. The Trust anticipates to spend approximately $25.0 to $30.0 million over multiple years on this program, and will include the activation of the former Sears space. Further details of this program will be released as they are finalized.

The Trust is also advancing an application for site plan approval on the vacant land adjacent to St. Laurent, seeking approval for a 28-storey residential tower with approximately 309 units. This site plan represents phase 1 of the Trust's residential development of the land. The site plan approval process is expected to take approximately 18 months at an estimated cost of $1.15 million.

The Trust has submitted a development application to redevelop Burquitlam Plaza in Coquitlam, BC. The proposal calls for six residential towers with as many as 2,175 units, along with approximately 85,000 square feet of commercial space.

DEBT STRATEGY

The Trust's long-term debt strategy involves the use of three forms of debt: conventional property-specific secured mortgages or bonds, unsecured convertible debentures and secured floating-rate bank financing. The Trust's objective is to ensure that capital resources are readily available to meet obligations as they become due, to complete its approved capital expenditure program and to take advantage of attractive acquisitions as they arise.

The Trust is limited by its Declaration of Trust to an overall indebtedness ratio of 65% of the gross book value of the Trust's total assets determined in accordance with IFRS. The debt limitations are in relation to the assets of the Trust in aggregate. There are no individual property debt limitations or constraints imposed by the Declaration of Trust.

The Trust's current operating strategy involves maintaining debt levels in the range of approximately 50 to 55% of the gross book value of total assets. Management is monitoring the debt ratio, which, despite recent reductions in total debt, has increased as a result of fair value changes on the Trust's real estate properties. Accordingly, the Trust does not generally repay maturing debt from cash flow, but rather with proceeds from refinancing such debt or financing unencumbered properties, and raising new equity or recycling equity through property dispositions to finance investment activities.

The Trust has a revolving loan agreement with Morguard that provides for borrowings or advances of up to $100.0 million, which is interest-bearing at the lender's borrowing rate and due on demand subject to available funds. This loan agreement is meant to provide short-term financing and investing options.

DEBT MATURITY PROFILE

Management attempts to stagger the maturities of the Trust's fixed-rate debt with the general objective of achieving even annual maturities over a long-term horizon. The intention of this strategy is to reduce the Trust's exposure to interest rate fluctuations in any one period.

The Trust maintains mortgages with banks (42.2%), insurance companies (32.5%) and pension funds (25.3%) to reduce its exposure to any one lending group.

The following tables outline the debt payments as at September 30, 2026, together with the weighted average contractual rate on debt maturing in the years indicated. Also highlighted is the Trust's up-financing opportunity in relation to the fair value of encumbered properties relative to their respective maturing debt.

The scheduled principal repayments above represent the payments assigned to each particular year, which are tied to the maturities for that year. Given current real estate values, the Trust has an opportunity to increase financing as certain debt matures and still maintain the targeted loan-to-value ratio in the range of 50 to 55%.

CREDIT FACILITIES

As at September 30, 2026, the Trust has secured floating rate bank financing availability totalling $103.7 million, which renews annually and is secured by fixed charges on specific properties owned by the Trust. The bank credit agreements include certain restrictive covenants and undertakings by the Trust. As at September 30, 2026, the Trust was in compliance with all covenants and undertakings.

The Trust's liquidity is defined and presented as follows:

LIQUIDITY

COVENANTS

The Trust has various financial covenants in relation to various outstanding debt instruments and facilities including debt to asset and debt service coverage ratios. As at September 30, 2026, and December 31, 2025, the Trust was in compliance with those covenants.

CONVERTIBLE DEBENTURES

On December 7, 2021, the Trust issued $159.0 million principal amount of 5.25% convertible unsecured subordinated debentures ("Convertible Debentures"), maturing on December 31, 2026 ("the Maturity Date"). Interest is payable semi-annually, not in advance, on June 30 and December 31 of each year.

The Convertible Debentures, with the exception of the value assigned to the holders' conversion option, have been recorded as debt on the consolidated balance sheets.

Conversion Rights: Each Convertible Debenture is convertible into freely tradable units of the Trust, at the option of the holder, exercisable at any time prior to the close of business on the last business day preceding the Maturity Date at a conversion price of $7.80 per unit, being a rate of approximately 128.2051 units per thousand principal amount of Convertible Debentures, subject to adjustment.

Redemption Rights: From January 1, 2026, to the close of business on December 31, 2026, the Convertible Debentures are redeemable, in whole or in part, at par plus accrued and unpaid interest, at the Trust's sole option.

Repayment Options Payment on Redemption or Maturity: The Trust may satisfy the obligation to repay the principal amount of the Convertible Debentures, in whole or in part, by delivering units of the Trust. In the event that the Trust elects to satisfy its obligation to repay principal with units of the Trust, the number of units issued is obtained by dividing the principal amount of the Convertible Debentures by 95% of the weighted average trading price of the units on the TSX for the 20 consecutive trading days ending five trading days prior to the date fixed for redemption or the Maturity Date, as applicable.

Interest Payment Election: The Trust may elect, subject to applicable regulatory approval, to issue and deliver units of the Trust to the Debenture Trustee in order to raise funds to pay interest on the Convertible Debentures, in which event the holders of the Convertible Debentures will be entitled to receive a cash payment equal to the interest payable from the proceeds of the sale of such units.

PART VI

ACCOUNTING POLICIES AND OTHER ITEMS

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ESTIMATES

The Trust's condensed consolidated financial statements for the three and nine months ended September 30, 2026, and 2025, have been prepared in accordance with IAS 34, "Interim Financial Reporting", as issued by the International Accounting Standards Board ("IASB"). The condensed consolidated financial statements use the same accounting policies and methods of their application as the most recent annual consolidated financial statements, except for the adoption of current accounting policies as described below, and should be read in conjunction with the most recent annual audited consolidated financial statements.

The MD&A for the year ended December 31, 2025, contains a discussion of the significant accounting policies most affected by estimates and judgments used in the preparation of the consolidated financial statements, being primarily the accounting policies relating to estimates of fair value of real estate properties. Management determined that as at September 30, 2026, there is no change to the assessment of the significant accounting policies most affected by estimates and judgments as detailed in the MD&A for the year ended December 31, 2025.

RISKS AND UNCERTAINTIES

The Trust is exposed to risks as further analyzed and described in the annual MD&A for December 31, 2025.

RELATED PARTY TRANSACTIONS

Related party transactions are summarized as follows:

(a) Agreement with Morguard Investments Limited

Under the property management agreement, the Trust pays MIL fees for property management services, capital expenditure administration, information system support activities and risk management administration. Property management fees average approximately 3.3% of gross revenue from the income producing properties owned by the Trust. The management agreement is renewed annually to ensure fees paid reflect fair value for the services provided. Under a leasing services arrangement, the Trust may, at its option, use MIL for leasing services. Leasing fees range from 2% to 6% of the total minimum rent of new leases. Fees for the renewal of a lease are half of the fees for a new lease. Leasing services include lease documentation.

The Trust has employed the services of MIL for both the acquisition and disposition of properties on a case-by-case basis. Fees are generally based on the sale price of the properties and are capitalized in the case of an asset acquisition. MIL is a tenant at three of the Trust's properties. The Trust has employed the services of MIL for the appraisal of its real estate properties as required for IFRS reporting purposes. Fees are generally based on the size and complexity of each property and are expensed as part of the Trust's professional and compliance fees.

The Trust has a revolving loan agreement with Morguard that provides for borrowings or advances of up to $100,000. The promissory notes are interest-bearing at the entities' borrowing costs and are due on demand, subject to available funds.

During the nine months ended September 30, 2026, a gross amount of $50,000 was advanced from Morguard, and a gross amount of $5,000 was repaid to Morguard. As at September 30, 2026, $95,000 remains payable to Morguard (December 31, 2025 – $50,000). For the three months ended September 30, 2026, the Trust incurred interest expense in the amount of $699 (2025 – $626) at an average interest rate of 4.35% (2025 – 5.14%). For the nine months ended September 30, 2026, the Trust incurred interest expense in the amount of $1,924 (2025 – $1,537) at an average interest rate of 4.40% (2025 – 5.21%). As at September 30, 2026, the Trust has interest payable on the revolving loan with Morguard of $nil (December 31, 2025 – $185) included in its balance sheets.

(c) Other Items with Morguard (Excluding MIL)

The Trust subleases office space from Morguard. For the three months ended September 30, 2026, the Trust incurred rent expense in the amount of $57 (2025 – $55). For the nine months ended September 30, 2026, the Trust incurred rent expense in the amount of $170 (2025 – $166).

Other than the revolving loan, the following additional amounts relating to Morguard are included in the balance sheets:

As at	**September 30, 2026**	December 31, 2025
Amounts receivable	**$67**	$5

Morguard is a tenant in one of the Trust's properties. For the three months ended September 30, 2026, the Trust earned rental revenue in the amount of $30 (2025 – $29). For the nine months ended September 30, 2026, the Trust earned rental revenue in the amount of $90 (2025 – $89).

Morguard provided a guarantee in association with the renewal of one of the Trust's mortgages in December 2023. For the three months ended September 30, 2026, the Trust incurred interest expense in the amount of $109 (2025 – $111). For the nine months ended September 30, 2026, the Trust incurred interest expense in the amount of $327 (2025 – $335) in relation to this guarantee.

FINANCIAL INSTRUMENTS

The following describes the Trust's financial instruments. The Trust's financial assets and financial liabilities comprise cash, amounts receivable, loan receivable, accounts payable and accrued liabilities, bank indebtedness, mortgages payable, Morguard loan payable, and convertible debentures (excluding any conversion option).

Financial assets must be classified and measured based on three categories: amortized cost, fair value through other comprehensive income ("FVTOCI") and fair value through profit or loss ("FVTPL"). Financial liabilities are classified and measured based on two categories: amortized cost and FVTPL. Fair values of financial assets and financial liabilities are presented as follows:

The fair values of cash, amounts receivable, accounts payable and accrued liabilities, bank indebtedness and Morguard loan payable approximate their carrying values due to the short-term maturities of these instruments.

MORTGAGES PAYABLE

Mortgages payable are carried at amortized cost using the effective interest rate method of amortization. The estimated fair values of long-term borrowings are based on market information, where available, or by discounting future payments of interest and principal at estimated interest rates expected to be available to the Trust as at September 30, 2026.

The fair value of the mortgages payable has been determined by discounting the cash flows of these financial obligations using September 30, 2026, market rates for debts of similar terms (Level 2). Based on these assumptions, the fair value as at September 30, 2026, of the mortgages payable has been estimated at $900,207 (December 31, 2025 – $929,212) compared to the carrying value before deferred financing costs of $913,858 (December 31, 2025 – $927,871). The fair value of the mortgages payable varies from the carrying value due to fluctuations in interest rates since their issue.

CONVERTIBLE DEBENTURES

The fair value of the Convertible Debentures is based on their market trading price (TSX: MRT.DB.A) (Level 1). The fair value as at September 30, 2026, of the Convertible Debentures has been estimated at $159,175 (December 31, 2025 – $161,385) compared to the carrying value before deferred financing costs of $158,602 (December 31, 2025 – $157,389).

PART VII

CONTROLS AND PROCEDURES CONCERNING FINANCIAL INFORMATION

The financial certification process project team has documented the design of the internal controls in order to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. This undertaking has enabled the Chief Executive Officer and Chief Financial Officer to attest that the design of the internal controls with regard to financial information are effective using the Committee of Sponsoring Organizations of the Treadway Commission Internal Control – Integrated Framework (2013). In order to ensure that the condensed consolidated financial statements and MD&A present fairly, in all material aspects, the financial position of the Trust and the results of its operations, management is responsible for establishing and maintaining disclosure controls and procedures, as well as internal control over financial reporting.

The Trust's management has evaluated the effectiveness of the Trust's disclosure controls and procedures and, based on such evaluation, has concluded that their design is adequate and effective for the three and nine months ended September 30, 2026. The Trust's management has also evaluated the effectiveness of the internal controls over financial reporting and has concluded that their design is effective for the three and nine months ended September 30, 2026.

An information disclosure policy constitutes the framework for the information disclosure process with regard to the annual and interim filings, as well as to the other reports filed or submitted under securities legislation. This policy aims, in particular, at identifying material information and validating the related reporting. Morguard's Disclosure Committee is responsible for ensuring compliance with this policy for both Morguard and the Trust. Morguard's and the Trust's senior management act as the Disclosure Committee, ensuring compliance with this policy and reviewing main documents to be filed with regulatory authorities to ensure that all significant information regarding operations is communicated in a timely manner.

Notwithstanding the foregoing, due to its inherent limitations, a control system can provide only reasonable assurance that the objectives of the control system are met and may not prevent or detect misstatements. Management's estimates or assumptions about future events may be incorrect, resulting in varying results. In addition, management has attempted to minimize the likelihood of fraud. However, any control system can be circumvented through collusion and illegal acts.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three months and nine months ended September 30, 2026, and 2025

In thousands of Canadian dollars, except units, per unit amounts and where otherwise noted

NOTE 1

NATURE AND FORMATION OF THE TRUST

Morguard Real Estate Investment Trust (the "Trust") is a "closed-end" real estate investment trust governed pursuant to an amended and restated declaration of trust dated May 5, 2021 (the "Declaration of Trust"), under, and governed by, the laws of the Province of Ontario. The Trust commenced active operations on October 14, 1997. The Trust units trade on the Toronto Stock Exchange ("TSX") under the symbol "MRT.UN". The Trust owns a diverse portfolio of retail, office and industrial properties located in six Canadian provinces. The Trust's head office is located at 55 City Centre Drive, Suite 1000, Mississauga, Ontario, L5B 1M3.

The Trust has a property management agreement with Morguard Investments Limited ("MIL"), a subsidiary of Morguard Corporation ("Morguard"). Morguard is the parent company of the Trust, owning 69.0% of the outstanding units as at September 30, 2026 (December 31, 2025 – 68.6%). Morguard is a real estate company that owns a diversified portfolio of multi-suite residential, retail, hotel, office and industrial properties. Morguard also provides advisory and management services to institutional and other investors.

NOTE 2

STATEMENT OF COMPLIANCE AND MATERIAL ACCOUNTING POLICIES

These condensed consolidated financial statements have been prepared in accordance with International Accounting Standards 34, "Interim Financial Reporting", as issued by the International Accounting Standards Board, and thus do not contain all of the disclosures applicable to the annual audited consolidated financial statements.

These condensed consolidated financial statements use the same accounting policies and methods of their application as the most recent annual audited consolidated financial statements and should be read in conjunction with the most recent annual audited consolidated financial statements.

The condensed consolidated financial statements were approved and authorized for issue by the Trustees on October 28, 2026.

Significant assumptions are used in the assessment of fair value, including estimates of future operating cash flows, the time period over which they will occur, appropriate discount and capitalization rates and stabilized net operating income (which is primarily influenced by revenue growth, vacancy rates, inflation rates and operating costs). These assumptions could change periodically and ultimately impact the underlying valuation of the Trust's real estate properties and equity-accounted investment.

Dispositions

On April 15, 2026, the District of Saanich municipal government expropriated a small portion of land at one of the Trust's retail properties in British Columbia, for total net proceeds of $383.

APPRAISAL CAPITALIZATION AND DISCOUNT RATES

Morguard's subsidiary has a valuation team that consists of Appraisal Institute of Canada ("AIC") designated Accredited Appraiser Canadian Institute ("AACI") members who are qualified to offer valuation and consulting services and expertise for all types of real property, all of whom are knowledgeable and have recent experience in the fair value techniques for investment properties. AACI-designated members must adhere to AIC's Canadian Uniform Standards of Professional Appraisal Practice and undertake ongoing professional development. Morguard's appraisal division is responsible for determining the fair value of investment properties every quarter. The team reports to a senior executive, and the internal valuation team's valuation processes and results are reviewed by senior management at least once every quarter, in line with the Trust's quarterly reporting dates.

Generally, the Trust's real estate properties are appraised using a number of approaches, depending on the asset, that would typically include a discounted cash flow analysis, a direct capitalization approach and a direct comparison approach.

The primary method of valuation used by the Trust is discounted cash flow analysis. This approach involves determining the fair value of each income producing property based on, among other things, rental income from current leases and assumptions about rental income from future leases reflecting market conditions at the applicable balance sheet dates, less future cash outflows pertaining to the respective leases. Fair values are primarily determined by discounting the expected future cash flows, generally over a term of 10 years and include a terminal value based on the application of a capitalization rate to estimated year 11 net operating income. Discount and capitalization rates are estimated using market surveys, available appraisals and market comparables.

The direct comparison approach compares a subject property's characteristics with those of comparable properties that have recently been sold. The Trust has a retail property in British Columbia where the highest and best use is a redevelopment to mixed residential and commercial use. Since the value of the property is in the underlying land with minimal holding income, it has been valued using the direct comparison approach.

Under the direct capitalization approach, capitalization rates are applied to the estimated stabilized net operating income of the properties. Estimated stabilized net operating income is based on projected rental revenue and property operating costs adjusted for such items as vacancy loss. The direct capitalization approach is typically used to corroborate the discounted cash flow analysis.

The stabilized capitalization rates in the following table exclude the property valued using the comparable sales method, as well as one property with expected variable income that did not have its discounted cash flow analysis corroborated using the direct capitalization approach.

Using the direct capitalization income approach to corroborate the discounted cash flow method, the properties were valued using capitalization rates in the range of 5.0% to 9.5% applied to a stabilized net operating income (December 31, 2025 – 5.0% to 10.0%), resulting in an overall weighted average capitalization rate of 7.59% (December 31, 2025 – 7.58%).

The stabilized capitalization rates by business segments are set out in the following table:

	September 30, 2026					December 31, 2025				
	Stabilized Occupancy		**Capitalization Rates**			Stabilized Occupancy		Capitalization Rates		
	Max.	**Min.**	**Max.**	**Min.**	**Weighted Average**	Max.	Min.	Max.	Min.	Weighted Average
Retail	**97.0%**	**90.0%**	**8.0%**	**5.0%**	**7.7%**	97.0%	90.0%	8.0%	5.0%	7.6%
Office	**100.0%**	**85.0%**	**9.5%**	**5.3%**	**7.7%**	100.0%	85.0%	10.0%	5.3%	7.8%

The table below provides further details of the discount rates and terminal cap rates used in the discounted cash flow method by business segments:

	September 30, 2026			December 31, 2025		
	Maximum	**Minimum**	**Weighted Average**	Maximum	Minimum	Weighted Average
RETAIL						
Discount rate	**9.0%**	**5.8%**	**7.7%**	9.0%	5.8%	7.7%
Terminal cap rate	**8.0%**	**5.3%**	**6.8%**	8.0%	5.3%	6.9%
OFFICE						
Discount rate	**10.0%**	**6.3%**	**7.6%**	10.0%	6.3%	7.6%
Terminal cap rate	**9.3%**	**5.3%**	**6.7%**	9.3%	5.3%	6.7%
INDUSTRIAL						
Discount rate	**6.5%**	**6.0%**	**6.2%**	6.5%	6.0%	6.2%
Terminal cap rate	**5.8%**	**5.5%**	**5.5%**	5.8%	5.5%	5.5%

Fair values are most sensitive to changes in discount rates, capitalization rates and stabilized or forecast net operating income. Generally, an increase in net operating income will result in an increase in the fair value of the income producing properties, and an increase in capitalization rates will result in a decrease in the fair value of the properties. The capitalization rate magnifies the effect of a change in net operating income, with a lower capitalization rate resulting in a greater impact to the fair value of the property than a higher capitalization rate. If the weighted

average stabilized capitalization rate were to increase or decrease by 25 basis points, the value of the income producing properties as at September 30, 2026, would decrease by $62,854 or increase by $67,177, respectively.

The sensitivity of the fair values of the Trust's income producing properties is set out in the table below:

As at September 30, 2026		
Change in capitalization rate	**0.25%**	**(0.25%)**
Retail	**($35,213)**	**$37,589**
Office	**(24,516)**	**26,164**
Industrial	**(3,125)**	**3,424**
	($62,854)	**$67,177**

As at	September 30, 2026	December 31, 2025
Mortgages payable before deferred financing costs	**$913,858**	$927,871
Deferred financing costs	**(2,247)**	(2,877)
Mortgages payable	**$911,611**	$924,994
Mortgages payable – non-current	**$579,436**	$679,106
Mortgages payable – current	**332,175**	245,888
Mortgages payable	**$911,611**	$924,994
Range of interest rates	**2.7% to 7.8%**	2.7% to 7.8%
Weighted average fixed interest rate	**4.8%**	4.7%
Weighted average interest rate on all mortgages	**4.7%**	4.7%
Weighted average term to maturity (years)	**2.5**	2.6

The mortgages payable above include floating-rate mortgages. As at September 30, 2026, these mortgages total $114,243 (December 31, 2025 – $125,018), excluding hedged debt.

The aggregate principal repayments and balances maturing on the mortgages payable as at September 30, 2026, together with the weighted average contractual rate on debt maturing in the year indicated, are as follows:

	Principal Instalment Repayments	Balances Maturing	Total	Weighted Average Contractual Rate on Balance Maturing
2026 (remainder of year)	$6,230	$117,845	$124,075	4.1%
2027	19,465	194,170	213,635	5.7%
2028	16,457	133,274	149,731	5.0%
2029	12,481	108,356	120,837	5.5%
2030	10,345	99,527	109,872	3.7%

	$78,221	**$835,637**	**$913,858**	**4.7%**

Substantially all of the Trust's real estate properties and related rental revenue have been pledged as collateral for the mortgages payable.

The Trust has various financial covenants in relation to various outstanding debt instruments and facilities, including debt to asset and debt service coverage ratios. As at September 30, 2026, and December 31, 2025, the Trust was in compliance with those covenants.

On June 25, 2024, the Trust completed a $75,000 variable-rate first mortgage loan agreement secured by a property in Prince George, British Columbia. On July 2, 2024, the Trust completed an interest rate swap with a notional amount of $75,000 whereby the Trust pays a fixed rate of interest of 5.82% and receives interest at a variable rate equal to the Canadian Overnight Repo Rate Average plus 2.15% on the notional amount. The Trust designated this interest rate swap as a cash flow hedge and applied hedge accounting. The objective of the interest rate swap is to eliminate the variability of cash flows on the variable-rate mortgage stemming from fluctuations in market interest rates.

As at September 30, 2026, the derivative liability was $237 (December 31, 2025 – $2,005). The maturity date of the interest rate swap coincides with the mortgage payable maturity on June 3, 2029.

NOTE 8

CONVERTIBLE DEBENTURES

Debentures

On December 7, 2021, the Trust issued $159,000 principal amount of 5.25% convertible unsecured subordinated debentures ("Convertible Debentures") maturing on December 31, 2026 (the "Maturity Date"). As at September 30, 2026, Morguard held a total of $60,000 principal amount of the Convertible Debentures (December 31, 2025 – $60,000).

Interest is payable semi-annually, not in advance, on June 30 and December 31 of each year.

The Convertible Debentures, with the exception of the value assigned to the holders' conversion option, have been recorded as debt on the balance sheets. The following table summarizes the allocation of the principal amount and related issue costs of the Convertible Debentures at the date of original issue. The portion of issue costs attributable to the liability of $4,026 was capitalized and will be amortized over the term to maturity, while the remaining amount of $187 was charged to equity.

	Liability	Equity	Principal Amount Issued
Transaction date – December 7, 2021	$151,934	$7,066	$159,000
Issue costs	(4,026)	(187)	(4,213)
	$147,908	**$6,879**	**$154,787**

Each Convertible Debenture is convertible into freely tradable units of the Trust at the option of the holder, exercisable at any time prior to the close of business on the last business day preceding the Maturity Date at a conversion price of $7.80 per unit, being a rate of approximately 128.2 units per thousand principal amount of Convertible Debentures, subject to adjustment.

The Convertible Debentures payable consist of the following:

As at	September 30, 2026	December 31, 2025
Convertible debentures – liability	**$151,934**	$151,934
Convertible debentures – accretion	**6,668**	5,455
Convertible debentures before issue costs	**158,602**	157,389
Issue costs	**(228)**	(919)
Convertible debentures	**$158,374**	$156,470

Remaining interest and principal payments on the Convertible Debentures are as follows:

	Interest	Principal	Total
2026	$4,174	$159,000	$163,174

Redemption Rights

From January 1, 2026, to the close of business on December 31, 2026, the Convertible Debentures are redeemable, in whole or in part, at par plus accrued and unpaid interest at the Trust's sole option.

Payment Upon Redemption or Maturity

As part of the above redemption options, or at maturity, the Trust may satisfy its obligation to repay the principal amounts of the Convertible Debentures, in whole or in part, by delivering units of the Trust. In the event that the Trust elects to satisfy its obligation to repay principal with units of the Trust, the number of units issued is obtained by dividing the principal amount of the Convertible Debentures by 95% of the weighted average trading price of the units

on the TSX for the 20 consecutive trading days ending five trading days prior to the date fixed for redemption or the Maturity Date, as applicable.

Interest Payment Election
The Trust may elect, subject to applicable regulatory approval, to issue and deliver units of the Trust to the Debenture Trustee in order to raise funds to pay interest on the Convertible Debentures, in which event the holders of the Convertible Debentures will be entitled to receive a cash payment equal to the interest payable from the proceeds of the sale of such units.

NOTE 9

LEASE LIABILITIES

The following table presents the change in the balance of the Trust's lease liabilities:

As at	September 30, 2026	December 31, 2025

NOTE 10

BANK INDEBTEDNESS

The Trust has operating lines of credit totalling $103,718 (December 31, 2025 – $103,330), which renew annually and are secured by fixed charges on specific properties owned by the Trust. One of these lines is subject to cash flow tests based on the operating results of the secured properties along with prevailing bond yields. As at September 30, 2026, there is a maximum of $101,618 available (December 31, 2025 – $99,430).

As at September 30, 2026, the Trust had borrowed $60,581 (December 31, 2025 – $87,973) on its credit facilities and issued letters of credit in the amount of $516 (December 31, 2025 – $516) related to these facilities. The net availability remaining on the Trust's credit facilities is $40,521 (December 31, 2025 – $10,941).

The bank credit agreements include certain restrictive covenants and undertakings by the Trust. As at September 30, 2026, and December 31, 2025, the Trust was in compliance with all covenants and undertakings. As the bank indebtedness is current and at prevailing market rates, the carrying value of the debt as at September 30, 2026, approximates fair value.

RELATED PARTY TRANSACTIONS

Related party transactions are summarized as follows:

(a) Agreement with Morguard Investments Limited

Under the property management agreement, the Trust pays MIL fees for property management services, capital expenditure administration, information system support activities and risk management administration. Property management fees average approximately 3.3% of gross revenue from the income producing properties owned by the Trust. The management agreement is renewed annually to ensure fees paid reflect fair value for the services provided. Under the leasing services arrangement, the Trust may, at its option, use MIL for leasing services. Leasing fees range from 2% to 6% of the total minimum rent of new leases. Fees for the renewal of a lease are half of the fees for a new lease. Leasing services include lease documentation.

The Trust has employed the services of MIL for both the acquisition and disposition of properties on a case-by-case basis. Fees are generally based on the sale price of the properties and are capitalized in the case of an asset acquisition. MIL is a tenant at three of the Trust's properties. The Trust has employed the services of MIL for the appraisal of its real estate properties as required for IFRS reporting purposes. Fees are generally based on the size and complexity of each property and are expensed as part of the Trust's professional and compliance fees.

During the period, the Trust incurred/(earned) the following:

	Three months ended		Nine months ended	
	September 30, 2026	September 30, 2025	**September 30, 2026**	September 30, 2025

The following amounts relating to MIL are included in the balance sheets:

As at	**September 30, 2026**	December 31, 2025
Amounts payable to MIL, net	**$1,197**	$1,773

(b) Revolving Loan with Morguard

The Trust has a revolving loan agreement with Morguard that provides for borrowings or advances of up to $100,000 (December 31, 2025 – $100,000), which is interest-bearing at the entities' borrowing costs and due on demand, subject to available funds.

During the nine months ended September 30, 2026, a gross amount of $50,000 was advanced from Morguard, and a gross amount of $5,000 was repaid to Morguard. As at September 30, 2026, $95,000 remains payable to Morguard (December 31, 2025 – $50,000). For the three months ended September 30, 2026, the Trust incurred interest expense in the amount of $699 (2025 – $626) at an average interest rate of 4.35% (2025 – 5.14%). For the nine months ended September 30, 2026, the Trust incurred interest expense in the amount of $1,924 (2025 – $1,537) at an average interest rate of 4.40% (2025 – 5.21%). As at September 30, 2026, the Trust has interest payable on the revolving loan with Morguard of $nil (December 31, 2025 – $185) included in its balance sheets.

(c) Other Items with Morguard (Excluding MIL)

The Trust subleases office space from Morguard. For the three months ended September 30, 2026, the Trust incurred rent expense in the amount of $57 (2025 – $55). For the nine months ended September 30, 2026, the Trust incurred rent expense in the amount of $170 (2025 – $166).

Other than the revolving loan, the following additional amounts relating to Morguard are included in the balance sheets:

As at	**September 30, 2026**	December 31, 2025
Amounts receivable	**$67**	$5

Morguard is a tenant in one of the Trust's properties. For the three months ended September 30, 2026, the Trust earned rental revenue in the amount of $30 (2025 – $29). For the nine months ended September 30, 2026, the Trust earned rental revenue in the amount of $90 (2025 – $89).

Morguard provided a guarantee in association with the renewal of one of the Trust's mortgages in December 2023. For the three months ended September 30, 2026, the Trust incurred interest expense in the amount of $109 ((2025 – $111).For the nine months ended September 30, 2026, the Trust incurred interest expense in the amount of $327 (2025 – $335) in relation to this guarantee.

NOTE 15

UNITHOLDERS' EQUITY

(a) Units Outstanding

The Trust is authorized to issue an unlimited number of units. These units have no par value. The following table summarizes the changes in units from January 1, 2025 to September 30, 2026:

	Nine months ended September 30, 2026	Year ended December 31, 2025
Balance, beginning of period	**66,433,117**	64,292,073
Distribution Reinvestment Plan – Morguard	**1,101,609**	1,839,750
Distribution Reinvestment Plan – other unitholders	**226,067**	301,294
Balance, end of period	**67,760,793**	66,433,117

Total distributions recorded during the nine months ended September 30, 2026, amounted to $12,079 or $0.18 per unit (2025 – $11,691 or $0.18 per unit). On September 15, 2026, the Trust declared a distribution in the amount of $0.02 per unit for the month of September 2026, payable on October 15, 2026.

(b) Normal Course Issuer Bid

On February 4, 2026, the Trust announced that the TSX had accepted notice filed by the Trust of its intention to make a normal course issuer bid. The notice provided that during the 12-month period commencing February 9, 2026, and ending February 8, 2027, the Trust may purchase for cancellation on the TSX up to 3,321,655 units in total, being approximately 5% of the outstanding units. Additionally, the Trust may purchase for cancellation up to $9,800 principal amount of the Convertible Debentures due on the Maturity Date, being 10% of the public float of outstanding Convertible Debentures. The price that the Trust would pay for any such units or debentures would be the market price at the time of acquisition.

During the nine months ended September 30, 2026, and 2025, the Trust did not purchase any units or debentures for cancellation.

(c) Distribution Reinvestment Plan

Under the Trust's DRIP, unitholders can elect to reinvest cash distributions into additional units at a weighted average trading price of the units on the TSX for the 20 trading days immediately preceding the applicable date of distribution. During the nine months ended September 30, 2026, the Trust issued 1,327,676 units under the DRIP (2025 – 1,405,922 units).

(d) Net Income/(Loss) Per Unit

The following table sets forth the computation of basic and diluted net income/(loss) per unit:

	Three months ended		**Nine months ended**	
	September 30, 2026	September 30, 2025	**September 30, 2026**	September 30, 2025
Net income/(loss) – basic	**$14,011**	$4,664	**$22,038**	($8,699)
Net income/(loss) – diluted	**$16,741**	$4,664	**$30,185**	($8,699)
Weighted average number of units outstanding – basic	**67,522**	65,422	**67,039**	64,904
Weighted average number of units outstanding – diluted	**95,122**	65,422	**94,640**	64,904
Net income/(loss) per unit – basic	**$0.21**	$0.07	**$0.33**	($0.13)
Net income/(loss) per unit – diluted	**$0.18**	$0.07	**$0.32**	($0.13)

To calculate net income/(loss) – diluted, interest, accretion and the amortization of financing costs on Convertible Debentures outstanding that were expensed during the period are added back to net income/(loss) – basic. The weighted average number of units outstanding – diluted is calculated as if all Convertible Debentures outstanding as at September 30, 2026, and 2025, had been converted into units of the Trust at the beginning of the year. The calculation of net income/(loss) per unit – diluted excludes the impact of the Convertible Debentures for the three and nine months ended September 30, 2025, as their inclusion would be anti-dilutive.

NOTE 17

COMMITMENTS AND CONTINGENCIES

(a) Commitments

The Trust has entered into various agreements relating to capital expenditures for its properties. These expenditures include development of new space, redevelopment or retrofit of existing space, and other capital expenditures. Should all conditions be met, as at September 30, 2026, committed capital expenditures in the next 12 months are estimated at $21,973.

The Trust has various other contractual obligations in the normal course of operations. These contracts can generally be cancelled with 30 days' notice.

(b) Contingencies

The Trust is liable contingently with respect to litigation, claims and environmental matters that arise from time to time, including those that could result in mandatory damages or other relief, which could result in significant expenditures. While the outcome of these matters cannot be predicted with certainty, in the opinion of management, any liability that may arise from such contingencies would not have a material adverse effect on the financial position or results of operations of the Trust. Any expected settlement of claims in excess of amounts recorded will be charged to operations as and when such determination is made.

NOTE 18

MANAGEMENT OF CAPITAL

The Trust defines capital that it manages as the aggregate of its unitholders' equity and interest-bearing debt less interest-bearing receivables. The Trust's objective when managing capital is to ensure that the Trust will continue as a going concern so that it can sustain daily operations and provide adequate returns to its unitholders.

The Trust is subject to risks associated with debt financing, including the possibility that existing mortgages may not be refinanced or may not be refinanced on as favourable terms or with interest rates as favourable as those of the existing debt. The Trust mitigates these risks by its continued efforts to stagger the maturity profile of its long-term debt, enhance the value of its real estate properties and maintain high occupancy levels. The Trust manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets.

The total managed capital for the Trust is summarized below:

As at	Note	September 30, 2026	December 31, 2025
Mortgages payable	7	**$911,611**	$924,994
Convertible debentures	8	**158,374**	156,470
Bank indebtedness	10	**60,581**	87,973
Morguard loan payable	14(b)	**95,000**	50,000
Lease liabilities	9	**16,298**	16,426
Unitholders' equity		**885,334**	864,721
		$2,127,198	$2,100,584

The Declaration of Trust permits the Trust to incur indebtedness, provided that after giving effect to incurring or assuming any indebtedness (as defined in the Declaration of Trust), the amount of all indebtedness of the Trust is not more than 65% of the gross book value of the Trust's total assets as defined in the Declaration of Trust. The Declaration of Trust also permits the Trust to incur floating-rate debt, provided that the total amount of all floating-rate debt of the Trust is not more than 15% of the gross book value of the Trust's total assets.

The Trust's debt ratios compared to its borrowing limits established in the Declaration of Trust are outlined in the table below:

As at	Borrowing Limits	September 30, 2026	December 31, 2025
Fixed-rate debt to gross book value of total assets	N/A	**44.5%**	44.9%
Floating-rate debt to gross book value of total assets	15.0%	**12.3%**	12.2%
	65.0%	**56.8%**	57.1%

As at September 30, 2026, the Trust met all externally imposed ratios and minimum equity requirements.

Mortgages Payable

The Trust has mortgages payable that include financial covenants such as coverage and leverage ratios, on a property and consolidated basis, as defined in the respective agreements. These ratios are evaluated by the Trust on an ongoing basis to ensure compliance. The Trust was in compliance with each of the financial covenants as at September 30, 2026, and December 31, 2025.

Convertible Debentures

The Trust's Convertible Debentures have no restrictive covenants.

Bank Indebtedness

The Trust's loan agreements permit the Trust to incur indebtedness. The loan agreements are fixed amounts that renew annually and are secured by fixed charges on specific properties owned by the Trust.

NOTE 19

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Trust's financial assets and liabilities comprise cash, amounts receivable, accounts payable and accrued liabilities, bank indebtedness, Morguard loan payable, mortgages payable and convertible debentures. Fair values of financial assets and liabilities and discussion of risks associated with financial assets and liabilities are presented as follows:

FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

The fair values of cash, amounts receivable, accounts payable and accrued liabilities, bank indebtedness and Morguard loan payable approximate their carrying values due to the short-term maturities of these instruments.

(a) Mortgages Payable

Mortgages payable are carried at amortized cost using the effective interest rate method of amortization. The estimated fair values of long-term borrowings are based on market information, where available, or by discounting future payments of interest and principal at estimated interest rates expected to be available to the Trust as at September 30, 2026.

The fair value of the mortgages payable has been determined by discounting the cash flows of these financial obligations using September 30, 2026, market rates for debts of similar terms (Level 2). Based on these assumptions, the fair value as at September 30, 2026, of the mortgages payable has been estimated at $900,207 (December 31, 2025 – $929,212) compared to the carrying value before deferred financing costs of $913,858 (December 31, 2025 – $927,871). The fair value of the mortgages payable varies from the carrying value due to fluctuations in interest rates since their issue.

(b) Convertible Debentures

The fair value of the Convertible Debentures is based on their market trading price (TSX: MRT.DB.A) (Level 1). The fair value as at September 30, 2026, of the Convertible Debentures has been estimated at $159,175 (December 31, 2025 – $161,385) compared to the carrying value before deferred financing costs of $158,602 (December 31, 2025 – $157,389).

(c) Fair Value Hierarchy of Financial Instruments and Real Estate Properties

The fair value hierarchy of income producing properties, properties under development, held for development and financial instruments measured at fair value in the balance sheets is as follows:

	September 30, 2026			December 31, 2025		
As at	**Level 1**	**Level 2**	**Level 3**	Level 1	Level 2	Level 3

Risks Associated with Financial Assets and Liabilities

The Trust is exposed to financial risks arising from its financial assets and liabilities. The financial risks include interest rate risk, credit risk and liquidity risk. The Trust's overall risk management program focuses on establishing policies to identify and analyze the risks faced by the Trust, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Trust's activities. The Trust aims to develop a disciplined control environment in which all employees understand their roles and obligations.

NOTE 20

SEGMENTED INFORMATION

IFRS 8, "Operating Segments", requires operating segments to be determined based on internal reports that are regularly reviewed by the chief operating decision-maker for the purpose of allocating resources to the segment and assessing its performance. The Trust has applied judgment by aggregating its operating segments according to the nature of the property operations. Such judgment considers the nature of operations, types of customers and an expectation that operating segments within a reportable segment have similar long-term economic characteristics. As at September 30, 2026, and 2025, the Trust has the following three reportable segments: retail, office and industrial.
